Re: Complete Release Of Energy Fuels Nuclear, Inc. from Reclamation Surety, Far West Mine.

Dear Mr. Hedberg:

On March 31, 1997, Sal Venticinque of my staff inspected the above-referenced mine, which is located in T29S, R24E (SLM), Section 28: SW1/4 SW1/4 NW1/4 and Section 29: SE1/4 SE1/4 NE1/4, San Juan County, Utah. The purpose of the inspection was to determine whether revegetation was successful in the recontoured areas; Mr. Venticinque found revegetation to be successful. In a previous letter dated October 4, 1991, we recommended partial release of the reclamation surety.

Based on the efforts of Energy Fuels at the Far West Mine, we recommend complete release from the reclamation surety with UDOGM. Should you have questions, please contact Mr. Venticinque of my staff at (801) 259-2141.

Sincerely,

Assistant District Manager
Resource Management
